

technical data ::

suitable for bin size:	width 800÷1200 mm length 1100÷1200 mm height 540÷780 mm
controls	
electrical consumption	4,0 kW
machine size	W×L×H / 2240×2950×3120 mm

output ::

depending on product size and bin size: up to 40 bins/hour

description ::

Automatic bin tipper is designed for gentle emptying of bins with soft and sensitive fresh produce.

Full bins are loaded into the machine frame by a forklift truck and, when emptied, removed in the same way. The control panel allows the operator to switch between automatic or manual mode and adjust function according to product used. Machine is equipped with a movable cover and autoregulation unit for safe bin loading.

BIN TIPPER
